To Whom It May Concern

This is to certify that the company MAB ANLAGENBAU Polonia Sp. z o.o. was sub-contracted by the general contractor BILFINGER + BERGER to provide and install mechanical systems in the new Canadian Embassy in Warsaw, Poland.

BILFINGER+BERGER delivered the building to us on budget and on schedule. Moreover, the new Embassy was constructed to the highest standard and has since been noted "the best building of the year" by the Polish Business News Magazine.

The excellent performance of ANLAGENBAU POLONIA and its engineers, their commitment and experience played a very important role in the extraordinary success of the project.

I wish ANLAGENBAU Polonia every success in their future endeavours.

A handwritten signature in blue ink, appearing to read "Donald McLennan".
